

Shopping Percents Project

You will turn in:

- 1 shopping flyer with 5 items, original prices and discounts on them
- 1 answer key with original and sale prices of each item and all calculations
- 1 completed shopping list with 4 items with all calculations

Directions:

Flyer:

1. Create a store name.
2. On a blank sheet of paper, create a sale flyer for your store.
3. Choose 6 items that are on sale in your store.
 - a. draw a picture of each item
 - b. include the original price and percentage off
 - c. choose a different percent off for each item.
4. Make sure everything is NEAT and spelled correctly. Include a brief description of each item.

Answer Key:

1. show all work for each item:
 - the original price
 - percent of discount
 - sale price
2. make sure this is NEAT and correct.
Check with a calculator after you complete all work.

Shopping List:

When all Answer Keys are turned in; flyers will be posted.

You will shop for 4 items.

Include :

name of the store and the item
